PROFILE

I'm a senior software engineer with keen interest in frontend. My computer science studies included native mobile & web application development with emphasis on mobile compatibility. I also have a strong passion for UI & UX design and I thrive when I get to create complex and beautiful UI's.

EXPERIENCE

CROWD COLLECTIVE CONSULTING
MAY 2021 - CURRENT
- Senior Software engineering consultant at Crowd Collective, an Academic Work company that provides senior level software development services to various customers in the field of IT. Working in collaboration with Academic Work's junior IT professionals to create various digital solutions by using modern software development practises & helping juniors with advancing their career and skills!

SIEMENS
JAN 2020 - MAY 2021
- Software Engineer at Siemens Finland software development team with product & customer responsibilities. Most of my daily programming consisted of creating responsive, complex SPA applications. Creating stellar user experience and functional frontend's in-collaboration with Siemens' customers formed to become my strength over the years at Siemens.

SIEMENS
AUG 2018 - JAN 2020
- Junior Software Engineer at Siemens Finland software development team.

SIEMENS
MARCH - AUG 2018
- Trainee in the Siemens Finland software development team.
